

06/15/07 RIC

Shirt Order S.9

The Key to this climb is using the Sport Technique of passing rope through anchor for a lower off, then lowering down to the ledge where you have view of the clients, but the canvas the other rope to make sure they get down to the safe ground - The start point requires a bit of exposed scrambling

lowered slope, so you can't see

exposed slyb that you wouldn't want clients to fall off
